Actions to Mitigate Disasters

Meet Your Local Mitigation Contacts

- Partner with your local mitigation planner to work jointly on mitigating hazards.
- Integrate utility mitigation projects into community hazard mitigation plans.

Develop Mitigation Projects

- Learn about options to mitigate impacts from natural disasters such as floods, earthquakes, droughts, wildfires, and tornadoes.
- Develop a plan to reduce the impacts of natural disasters on your utility.

Implement and Fund Projects

- Discover state and federal funding programs available to support your utility's mitigation projects.
- Learn about the benefits of building resilience into your capital improvement plans.
