Renewable Fuel Standard Program: Methodology for Determining Schedule List for Required 3-Year Engineering Review

Methodology:

- Step 1: EPA filtered the public Part 80 Registered Company/Facility List to facilities that contained either "renewable fuel producer" or "ethanol producer" in the "facility activity" column.
- Step 2: If the facility was added as a new facility in a Company Update change request (CR) in OTAQREG after September 2011, EPA used the CR activation date as the facility's initial registration date.
- Step 3: For facilities with no date from Step 2, if the facility's company was added in a New Company CR in OTAQREG after September 2011, EPA used the CR activation date as the facility's initial registration date.
- Step 4: For facilities with no date from Step 2 or 3, EPA used the New Company CR creation date as the facility's initial registration date.
- Step 5: If the facility's initial registration date was found to be before 2010, EPA placed the facility in the 2010 initial registration cohort.

Notes:

- Public Part 80 List can be located at <https://www.epa.gov/fuels-registration-reporting-and-compliance-help/registered-companies-and-facilities-fuel-programs>
- OTAQREG did not begin collecting CR activation data until September 2011.

*3-Year Updated Engineering Review Report Schedule:

- 2010 Cohort are due by January 31 of 2013, 2016, 2019, and so on
- 2011 Cohort are due by January 31 of 2014, 2017, 2020, and so on
- 2012 Cohort are due by January 31 of 2015, 2018, 2021, and so on
- 2013 Cohort are due by January 31 of 2016, 2019, 2022, and so on
- 2014 Cohort are due by January 31 of 2017, 2020, 2023, and so on
- 2015 Cohort are due by January 31 of 2018, 2021, 2024, and so on
- 2016 Cohort are due by January 31 of 2019, 2022, 2025, and so on
- 2017 Cohort are due by January 31 of 2020, 2023, 2026, and so on

Renewable Fuel Standard Program: Applicable Regulations for Updated Engineer Reviews

Initial Registration:

80.1450(b)(1): Any RIN-generating foreign or domestic producer of renewable fuel, any foreign renewable fuel producer that sells renewable fuel for RIN generation by a United States importer, or any foreign ethanol producer that produces ethanol used in renewable fuel for which RINs are generated by a United States importer, must provide EPA the information specified under §80.76 if such information has not already been provided under the provisions of this part, and must receive EPA-issued company and facility identification numbers prior to the generation of any RINs for their fuel or for fuel made with their ethanol. Unless otherwise specifically indicated, all the following registration information must be submitted and accepted by EPA by July 1, 2010, or 60 days prior to the generation of RINs, whichever date comes later, subject to this subpart.

80.1450(b)(2): An independent third-party engineering review and written report and verification of the information provided pursuant to paragraph (b)(1) of this section. The report and verification shall be based upon a site visit and review of relevant documents and shall separately identify each item required by paragraph (b)(1) of this section, describe how the independent third-party evaluated the accuracy of the information provided, state whether the independent third-party agrees with the information provided, and identify any exceptions between the independent third-party's findings and the information provided.

Registration Updates:

80.1450(d)(1): Any producer of renewable fuel, and any foreign ethanol producer who makes changes to his facility that will allow him to produce renewable fuel, as defined in §80.1401 that is not reflected in the producer's registration information on file with EPA must update his registration information and submit a copy of an updated independent third-party engineering review on file with EPA at least 60 days prior to producing the new type of renewable fuel. The producer may also submit an addendum to the independent third-party engineering review on file with EPA provided the addendum meets all the requirements in paragraph (b)(2) of this section and verifies for EPA the most up-to-date information at the producer's existing facility.

80.1450(d)(2): Any producer of renewable fuel and any foreign ethanol producer who makes any other changes to a facility that will affect the producer's registration information but will not affect the renewable fuel category for which the producer is registered per paragraph (b) of this section must update his registration information 7 days prior to the change.

80.1450(d)(3): All producers of renewable fuel and foreign ethanol producers must update registration information and submit an updated independent third-party engineering review according to the schedule in paragraph (d)(3)(i) or (d)(3)(ii) of this section, and including the information specified in paragraph (d)(3)(iii) of this section:

80.1450(d)(3)(i): For all producers of renewable fuel and foreign ethanol producers registered in calendar year 2010, the updated registration information and independent third-party engineering review shall be submitted to EPA by January 31, 2013, and by January 31 of every third calendar year thereafter; or

*80.1450(d)(3)(ii): For all producers of renewable fuel and foreign ethanol producers registered in any calendar year after 2010, the updated registration information and independent third-party engineering review shall be submitted to EPA by January 31 of every third calendar year after the first year of registration.

80.1450(d)(3)(iii): In addition to conducting the engineering review and written report and verification required by paragraph (b)(2) of this section, the updated independent third-party engineering review shall include a detailed review of the renewable fuel producer's calculations used to determine VRIN of a representative sample of batches of each type of renewable fuel produced since the last registration. The representative sample shall be selected in accordance with the sample size guidelines set forth at §80.127.
