

Job Aid

How to Associate a 40 CFR Part 79 Company to a 40 CFR Part 80 and/or 1090 Company in OTAQREG

This job aid is designed to provide a high-level overview of this task so that you can start using the redesigned OTAQREG system as quickly as possible.

Before you begin:

1. You must have a Central Data Exchange (CDX) account
2. You must be logged into the CDX OTAQREG program service
3. You must be the Responsible Corporate Officer or a delegated user of a registered company with a 4-digit EPA Company ID

For help with these steps, see the documentation on EPA's Fuels Registration, Reporting, and Compliance Help website:

<https://www.epa.gov/fuels-registration-reporting-and-compliance-help>

Initiate the Request

(Association can be accomplished by submitting a New Company or Company Program Type Request)

1. Click the Company ID
2. Select Edit Program Types and Activities

The screenshot displays the 'My Companies' interface in the EPA OTAQ Registration system. At the top, the EPA logo and 'OTAQ Registration' are visible, along with navigation links: 'Home', 'Create New Company', and 'Associate To Existing Company'. The user is logged in as 'Jennifer'. The main content area shows a table of companies. The first company, '1041', is highlighted with a yellow box and a '1' in a yellow circle. A dropdown menu is open for this company, with 'Edit Program Types and Activities' selected, indicated by a yellow box and a '2' in a yellow circle. The table columns are 'Company ID', 'Company Name', 'Address', and 'My Roles'. The company details shown are: '1041', 'Test Biodiesel Manufacturer Company', '123 Main Street, Anywhere, AL 12345, US', and roles 'Company Editor' and 'RCO'. A 'Filter Companies:' search box is present at the top right. At the bottom right of the table, there are 'Previous', '1', and 'Next' navigation buttons.

40 CFR Part 79 Company Information

What To Do

Each motor-vehicle gasoline, motor-vehicle diesel fuel, and fuel additive for either or both, is required to be registered under 40 CFR Part 79 and assigned a nine-digit product identifier.

In an effort to end the use of paper forms 3520-12 and 3520-13 under 40 CFR Part 79, EPA is transitioning all fuel and fuel additive registrations to this online system.

For fuel and fuel additive products that were assigned a nine-digit product ID prior to August 2020, the company that manufactures or imports the product must manage that product through a company that is registered in this online system.

1
Is this company required to submit fuel and/or fuel additive information to comply with 40 CFR Part 79? * Yes No

2
The registration of a fuel or fuel additive product under 40 CFR Part 79 can only be managed by one company. Is this company responsible for complying with the Part 79 registration and reporting requirements for a fuel or fuel additive product (i.e., updates to chemical composition, impurities, etc.)? If this company is using a fuel or fuel additive product that is managed by another company (i.e., parent, division, subsidiary, etc.), then answer NO. * Yes No

3
Has the fuel or fuel additive product that is managed by this company been assigned a nine-digit product ID through the submission of paper forms? If this company has not yet registered any products, answer NO. * Yes No
